EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

National Institute of Technology Agartala

2020 – 2024

CGPA: **7.98**

EXPERIENCE

Software Engineer

June 2024 – July 2026

Amdocs

- Designed and implemented **RPL–OMS integration** for automatic PAYG International Roaming activation based on subscriber first-credit events, incorporating subscriber-level state management, fault-tolerant API integration, and business-rule validation.
- Enhanced prepaid recharge capabilities by integrating **Apple Pay, Google Pay, PayPal, and Barclays payment gateway**, supporting secure payment processing, recurring top-ups, transaction persistence, and payment reconciliation.
- Developed a configurable **automatic payment retry mechanism** for failed card transactions, improving recharge reliability while preventing duplicate charges and ensuring accurate recharge status reconciliation.
- Implemented backend logic for the **Transaction Control (TC) Daemon**, enabling reliable recharge processing during downstream outages through transaction retry, pending request management, and recovery workflows.
- Contributed to **PAYG product lifecycle enhancements** by implementing product end-date management, ensuring accurate recharge eligibility, product validity, and downstream reporting.

PROJECTS

Jingle Shop | [Repo of Application](#) | [Apk](#) | [Demo](#)

- Developed a fully authenticated E-commerce application with conditional **searching** and **rating** system.
- Successfully replicated core features including **cart**, **wishlist** management and payment processing.
- Admin role has functionality like **CRUD products**, analyse the **graph** of category wise earnings, update **Order status**. Backend hosted on **Cyclic**.
- Reduced the complexity and size of the application by 30% by using **Cloudinary** and **Provider** packages.
- Tech Stack: **Dart, Javascript, Flutter, Express.js, Node.js, MongoDB, Bcrypt libraries, REST API**.

ACHIEVEMENTS

- CodeChef **3** programmer with a maximum rating of **1789**. Profile: [CodeChef](#)
- Secured **Global Rank 257** among **2295** participants in CodeChef Cook-Off.
- Solved **320+** problems on [LeetCode](#).
- Solved **360+** problems on [GeeksforGeeks](#).

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL

Backend: Spring Boot, REST APIs, JDBC

Databases: Oracle SQL, MySQL, MongoDB

Developer Tools: Git, GitHub, Docker, Linux, VS Code, IntelliJ IDEA

AI Tools: Cursor, MCP

Core CS: OOP, DBMS, Operating Systems, Computer Networks
